

FIRE ALARM

THE FIRST STEP TO AN EFFECTIVE PROTECTION

An efficient detection system is the first line of defense to ensure maximum protection of lives and property.

VIKING offers sophisticated systems—addressable and conventional detectors, intelligent control panels and a vast assortment of specialized fire alarm equipment—that react at the earliest possible sign of a fire without any type of compromise whatsoever.

VIKING is a distributor of **NOTIFIER® by Honeywell International** products in QUEBEC, BRITISH COLUMBIA, NOVA SCOTIA and OTTAWA (Ontario). The **NOTIFIER® by Honeywell** line of products is world-renowned for innovative fire alarm systems that surpass the highest industry standards.

Thanks to their wide range of specially designed detectors and control panels that can adapt to any specific fire protection requirement, **VIKING IS READY TO SOUND THE ALARM—AND BE THERE WHEN NEEDED!**
